CONTENTS

RECREATIONAL ACTIVITY.....9

Bondar O., Ivanenko I., Shevchenko R., Lysiuk O., Alimenko O. Scientific justification of a methodological approach to pricing policy formation for recreational activities on Kyiv's water bodies.....9

Kropyvka S. Ecological assessment of the recreational and tourism potential of the Lviv agglomeration.....16

ENVIRONMENTAL SAFETY.....21

Kuryliuk O. Investigation of the electrochemical generation of active chlorine in a diaphragm electrolyzer with a flow-through anode chamber.....21

Tytarenko A., Makieiev P. Environmentally sustainable management of multilayer polymer packaging waste in the context of resource conservation.....25

Chaika V., Grygorieva L. Ecological and Economic Assessment of the Use of a Hybrid Solar Power Plant and its Impact on the Environment of the City of Mykolaiv.....33

Shevchenko N., Ponikarchyk S. Ecological and Technological Foundations for Minimizing the Negative Impact of Livestock Waste on the Environment during Biocomposting.....38

ECOLOGICAL STABILITY OF INTRODUCED SPECIES.....43

Ivashchenko I., Tymoshchuk T., Bacalova A., Kotyuk L. Resistance of introduced Asteraceae species to phytopathogens and phytophagous insects under introduction conditions in the Central Polissia Region of Ukraine.....43

ENVIRONMENTAL MONITORING.....50

Kahukina A., Patseva I., Herasymchuk L., Valerko R. Monitoring environmental changes in the context of global anthropogenic impact: an analysis of key indicators.....50

Kalyn B., Ivakha A. Geoinformation monitoring of compliance with anthropogenic load standards for forest and water resources.....54

ENVIRONMENTAL CONSEQUENCES OF MILITARY OPERATIONS.....60

Gladchuk M., Markiv V., Markiv B., Bodnar O., Horyn O., Zhyrska H., Herts N., Herts A., Kononchuk O. Assessment of soils affected by military actions and selection of their further use: a review and conceptual model.....60

Demchuk L., Rudyshyn S., Uvaeva O., Nonik L., Ustymenko V., Alpatova O., Rusetska N. The use of artificial intelligence and unmanned aerial vehicles for humanitarian demining as a means of environmental conservation.....73

Krupiei K. Spatial Assessment of Soil Phytotoxicity in the Detonation Zone of a Guided Aerial Bomb (Zaporizhzhia, Ukraine).....79

ECOLOGY OF NATURE RESERVE FUND OF UKRAINE.....87

Martyn A., Hunko L., Kolhanova I. Criteria for classifying protected areas and sites within Ukraine's Nature reserve fund.....87

Morozova T., Kovhan Ya., Herasymenko M. Spatiotemporal parameterization of a potential collision risk model for bird fauna in mountainous wind energy areas.....99

Rymaruk P., Sirenko A. Fauna and ecology of Apidae (Apoidea, Hymenoptera, Insecta) of Verkhovynskyi National Nature Park.....110

ATMOSPHERIC ECOLOGY.....119

Kolisnyk A., Hrabko N., Khrapun M. A study of the environmental risk to life expectancy among the population of Ternopil based on the 'dose-effect' relationship in the context of atmospheric pollution.....119

BIODIVERSITY CONSERVATION.....126

Vysochin D., Gorban V., Voronova N. Comprehensive Assessment of Biodiversity and Ecological Stability of Forest Ecosystems in the Forest-Steppe Zone (Case Study of the Branch «Myrhorod Forestry»).....126

ISSN: 2306-9716 (Print), ISSN: 2664-6110 (Online)

Zelenchuk I. Construction technogenesis as a factor of landscape transformation 133

ECOLOGY OF PRODUCTION 140

Naumov Ya. Environmental assessment and resource valorisation of stone-processing slurry from the Holovyne deposit 140

ECOLOGY OF WATER RESOURCES 145

Hnativ I. Sediment Yield Dynamics Along the Dniester River and in Its Tributary Drainage Basins 145

Kravchenko O., Kobylianskyi V., Markina L. Spatial classification and integrated ranking of sources of chemical, biological and radiological-nuclear loading on a reservoir used as a drinking water source 151

Magas N. Spatiotemporal Variability of the Optical State of the Tyligul and Berezan Limans: Ecological Interpretation of Satellite Observations, 2018–2025 159

Pasichnyk M., Hryhoriichuk V. Historical Methods of Water Retention in the World's River Valleys 174

Pohrebnyi A., Yakovlev V., Tsurkan O., Oliinyk N., Dmytrenko T. Hydrogeological and water chemistry aspects of developing requirements for mineral waters from challenging water-bearing fields 183

Fedenko Yu.M. Environmental aspects of water treatment at modern industrial energy facilities 196

Shekk P., Motorna T. The efficiency of using biomeliorator fish (Hypophthalmichthys molitrix, and the hybrid of H. molitrix + H. nobilis) to reduce organic pollution in the Danubian lakes 200

Yamborak R., Krachan T., Plahtiy D. Comparative ecological and chemical assessment of total water hardness in local water supply sources 208

ECOSYSTEM ECOLOGY 212

Martynenko V. Conceptual and methodological foundations for assessing successional processes in disturbed ecosystems 212

ECOLOGY OF LAND RESOURCES 216
